Online Grant Writing 101 for Cities Scheduled Dec. 15

Iowa cities are encouraged to register to participate in Grant Writing 101 for Cities, which will be presented online by Iowa State University Extension and Outreach staff from 10 a.m. to 2 p.m. on Tuesday, Dec. 15.

Grant Writing 101 for Cities is a customized workshop that provides hands-on training in seeking and writing successful grant applications. This version of the popular Grant Writing 101 will focus on projects and grant programs of particular interest to Iowa cities. The workshop is being sponsored by the Iowa League of Cities with support from the National Science Foundation.

There is a flat registration fee of $50 per city, with up to five of the registered city’s employees and/or elected officials allowed to participate in the workshop. The registration deadline for the workshop is Dec. 11. To register, click this link: https://bit.ly/GW17095

Grant Writing 101 will be presented by Jane Nolan Goeken and Eric Christianson, Community and Economic Development Specialists with ISU Extension and Outreach. Both have extensive experience writing and reviewing grant applications and working with various federal, state, local and private foundation grant programs. They will assist workshop participants in exploring various public and private funding sources, and provide instruction and tips on planning projects and writing successful grant applications.

There will be a one-hour break for lunch around noon during which participants will also be asked to complete a brief grant review exercise.

For more information about the workshops, contact Jane Goeken at jngoeken@iastate.edu or 712-240-2504.
